In the USA, abortion takes the lives of over 600,000 babies a year. Dobbs v. Jackson Women's Health could change that.

The Mississippi law at stake in this case bans abortion after 15 weeks. The question before the Supreme Court is whether all pre-viability bans on elective abortions are unconstitutional.

This is the case that could overturn the Roe v. Wade decision which made abortion legal in all 50 states.

Nine justices stand between life and death for millions of innocent children and their mothers.
